

Was ist der HNO-Thesaurus?

Der HNO-Thesaurus enthält eine Auflistung der Diagnoseschlüssel, die am häufigsten von niedergelassenen HNO-Ärzten in Deutschland dokumentiert werden. Damit stellt der HNO-Thesaurus eine Auswahl von Codes der ICD-10-GM dar und versieht diese mit den im Praxisalltag gebräuchlichen Bezeichnungen. Er ersetzt daher nicht die Vollversion der ICD-10-GM. Für ergänzende Informationen, z.B. zu einzelnen ICD-Codes, besuchen Sie die Zi-Kodierhilfe (www.kodierhilfe.de) oder installieren Sie die Zi-Kodierhilfe-App.

Für spezielle Kodierungen im Zusammenhang mit SARS-CoV-2 verweisen wir auf den Zi-Flyer „Kodieren einer COVID-19-Erkrankung“ (www.zi.de).
